ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite):

A 1.0-acre pond/borrow pit was dug in uplands with an earthen berm along its west side on a drainage feature that drains west into Willow Creek. The drain does not have an ordinary high water mark until near its confluence with Willow Creek. The pond is unvegetated.
